RAIDING SUBMERSIBLES WARD OFF CAPTURE; ALLOW NO BLOCKADE

Commerce Destroyers Disappear and Have Not Been Reported Since Six Vessels Were Sunk

LANSING GOES TO SHADOW LAWN

Secretary of State and President to Formulate Measures For Confining Naval Warfare to European Waters

Newport, Oct. 10.—The German commerce raiders which bore down on shipping off the New England coast on Sunday, sending six vessels to the bottom, are believed to have made a clean escape.

British warships from the coast patrol are still scouring the Atlantic far out to sea in the hope of overtaking the Germans. The French cruiser Conde is also on the chase.

Although the captain of the Nantuxett light ship reported seeing three submarines, it virtually is a certainty now that only two were present, the U-58 and the U-61.

The U-61 it is believed here may have been acting as a supply ship. There has been no confirmation of wireless reports that nine merchant ships were sunk. United States naval officers here have come to the opinion that only six were destroyed.

Whether or not the raiders retired to a secret submarine base on the American coast or are on their way back to Germany is still uncertain. The Atlantic has been combed by wireless within the last 48 hours warning merchant ships.

(International News Service.)

Washington, Oct. 10.—The United States will not submit to any operations by belligerent warships which would establish even a seeming blockade of American ports. That decision has been reached by the administration, and in consequence Secretary Lansing will go to Shadow Lawn to confer with President Wilson this afternoon, where a definite policy dealing with Teutonic submarines and allied cruisers will be formulated, which it is hoped will go far towards keeping the war operations on the other side of the Atlantic.

Admitting that the operations of the German submarines off Nantuxett have brought about a general situation fraught with gravest danger, officials profess to believe today that a way out can be found by the administration.

No word had been received today from the German undersea craft. Officials believe that either they have headed south to evade pursuit or are heading directly east out of the regular channel for steamers, now dotted with British and French war craft.

The majority of officials here believe that the present raid is to be followed by others and on a wider scale, but they do not expect any violation of the pledges made by Germany that she will conduct a cruiser warfare under international law at this time.

\$146.57 Paid For One Load of Cotton Today by A. Bernstein

A record price for a single load of cotton—\$146.57—was paid today by A. Bernstein to C. W. Lindsey. This is the biggest bunch of money that has been handed out here for a load of the staple, it is thought, since civil war prices were the vogue.

The local cotton buyers are setting the pace for North Alabama, and in consequence cotton is being brought here for sale from far and near.

LETTER DELIVERED BY U-BOAT TOLD OF SUBMARINE WAR

(International News Service.)

New York, Oct. 10.—The letter which Capt. Hans Rose of the U-53 sent to the German ambassador from Nantuxett last Saturday contained brief notes from the German foreign office outlining Germany's present attitude on the submarine issue.

This was learned here today from an absolutely trustworthy source in immediate touch with the central powers' embassy.

The U-53 was sent speeding across the Atlantic in a semi-race with the Frederick VIII for the purpose of imparting to the German ambassador before Mr. Gerard's arrival here just where the German government stands on the submarine issue now.

In substance the message entrusted to the U-boat commander contained exactly what the German foreign office asked Ambassador Gerard to report to President Wilson.

FLASH—Washington, Oct. 10.—Acting Secretary of State Polk announces German submarines not barred from American ports.

PRESIDENT TO DISCUSS CRISIS AT 5 P. M. TODAY.

(International News Service.)

Shadow Lawn, Oct. 10.—President Wilson it was made known early today will not reach a decision regarding the latest submarine crisis until he has had a long talk with Secretary of State Lansing. Mr. Lansing will come here this afternoon and arrangements have been made for him to meet the president at 5 o'clock. It was officially stated this morning that no protest has as yet been received from the British and French governments.

FLEET OF 12 DESTROYERS LOOK FOR LOST KINGSTON

(International News Service.)

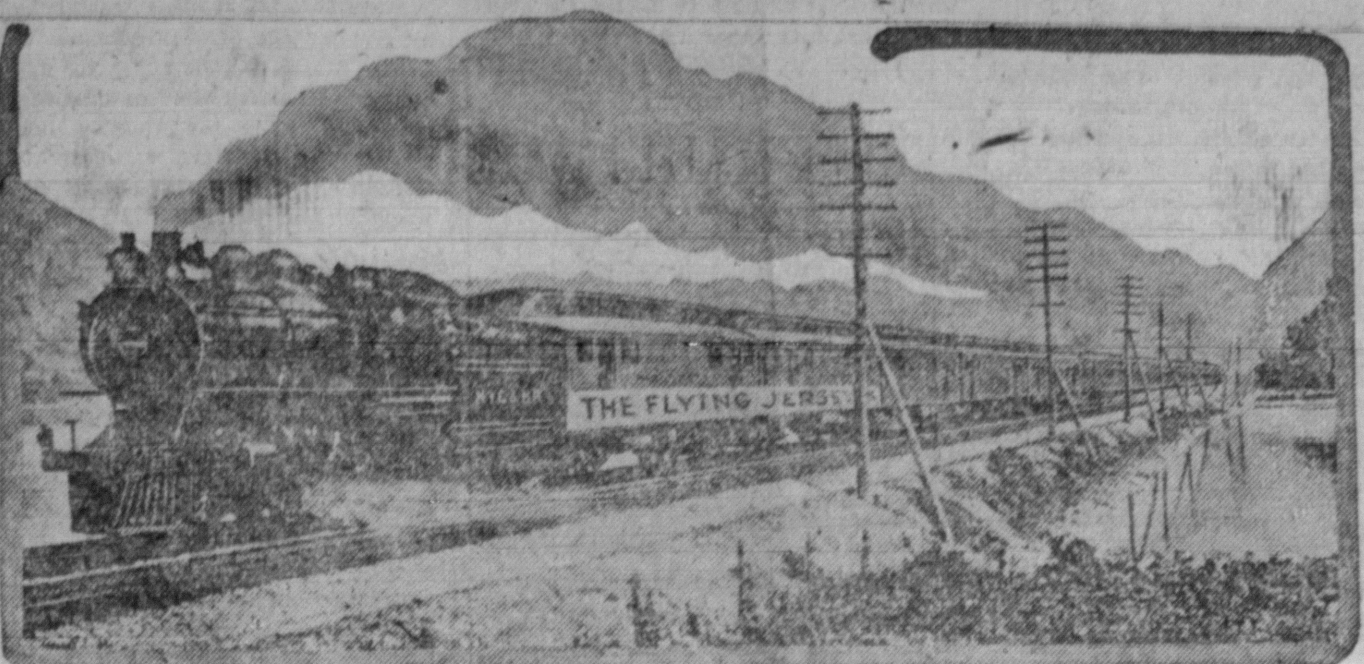

Newport, Oct. 10.—A fleet of 12 United States destroyers left here at 11 o'clock today to look for a boat load of sailors from the British freighter Kingston, which is reported to be still missing. Earlier reports were that all of the Kingston's crew were safe on an incoming Greek steamer. Rigid watch is also being kept by United States ships to prevent activities by submarines within neutral waters.

GREEK STEAMER HELD UP TWICE BY SUBS.

(International News Service.)

New York, Oct. 10.—The Greek steamer Patria reported on arriving here today that she was held up twice by submarines yesterday, one at 6 o'clock in the morning and again at 4 o'clock in the afternoon. The steamer was allowed to proceed unmolested.

JERSEY SPECIAL, IOWA TO MASSACHUSETTS

This is the Jersey Special, a fast train on which ten show herds of Jersey cattle were taken from the National Dairy congress show at Waterloo, Ia., to the National Dairy show at Springfield, Mass. The ten Arms palace cars contained 168 cows and bulls, and the owners and attendants occupied four Pullmans that were attached to the novel train. The Jersey Special made three stops, at Indianapolis, Columbus and Utica, N. Y., at each of which cities there was a parade and banquet in its honor.

DEFEAT.

Sanitary Officer—Fred J. Patterson.
Street Supt.—W. C. Mainard.
Day policeman—C. Ed Howell.
Day-Night policeman—C. M. Vest.

The foregoing officers were elected by the Albany council last night, the "outs" making a perfect score in their battle with the "ins." The balloting ended a contest that at one time grew so heated that a special election was considered for the purpose of allowing the electorate to do its own picking.

Three of the four winners came under the wire on a 5 to 3-4 vote on the first ballot, while the fourth, W. C. Mainard, was elected on the second ballot by a vote of 6 to 2. Fred J. Patterson had the distinction of being elected twice within a period of five minutes, once with the vote of his uncle, John Patterson, president of the city council, and once without that vote, which was not then needed to break the tie.

The voting for sanitary inspector was featured with a series of errors that added to the zest and uncertainty of the contest. In reading the applications, City Clerk Henry Hartung discovered but one in the big pile of papers on his desk—that of S. E. Dutton, incumbent. A councilman suggested that another application had been filed and the papers were stirred again, revealing the fact that Fred J. Patterson desired the office. The two names were voted on, and Patterson won the president of the council casting the deciding vote. With Patterson already elected, the information came that still a third candidate had been omitted from the balloting. The council rescinded its former action, and opened the polls for another heat.

The third application was read—it was that of W. O. Snyder, who made the council a "fifty-fifty" proposition—\$50 to the street fund and \$50 to the school fund, to be paid by him annually if chosen as the public servant. With three candidates in the race, Patterson showed his true sprinting qualities by getting an extra vote—that of Alderman Harvey, who up to that time had not picked a winner.

THE BALLOTING.

After the council had disposed of routine business, and had filed into the clerk's office for a brief conference at the suggestion of Alderman Dillehay, the election of officers was taken up on motion of Alderman Wolfe. Balloting for a night and day policeman was adopted as the first order. There were but two candidates—W. V. Davidson and C. Ed Howell. The vote was:

Davidson—Harvey, Redding, Tidwell.

LAWBREAKING AT WOLF'S

SERVES NOTICE THAT PLAYING
FOR PRIZES WILL BE INVESTIGATED
IN DECEMBER.

Charging that there is "a practice among a certain class of playing cards and other games for prizes," and that it considers "this practice one specie of gambling," the grand jury of the Morgan county law and equity court in its formal report thus serves notice that these matters will be investigated when the body again convenes Dec. 11.

The report of the grand jury declares that otherwise Morgan county is in good condition from a law and order standpoint, but that there is considerable violation of the gaming statute.

The grand jury's remarks on the practice in Decatur and Albany of playing cards and other games for prizes was taken to be aimed at the numerous organizations of women that meet and play bridge, whist, rook, checkers, flinch, authors and other games for small prizes.

The report, which was signed by Roman T. Puckett, a Hartselle merchant, was made by a grand jury composed for the most part of farmers.

The report follows in full:

"We, your grand jury, have been in session since Monday of this week, and have docketed 62 cases, examined 275 witnesses, and returned 51 true bills.

"We find that the condition of the county is in good condition from a law and order standpoint. The prohibition laws are being enforced which had caused, in our opinion, a decrease in crime in Morgan county. We find that there is a considerable amount of violation of the gaming statute. We also find that there is a practice in the Decatur among a certain class of playing cards and other games for prizes, and this practice has been referred to in the past by several criminal lawyers to prejudice the minds of jurors against conviction of crap shooters and other gamblers that have been indicted in this court. We consider this practice one specie of gambling and shall investigate it at our next sitting.

"We would recommend that the sheriff give special attention to the enforcement of the prohibition laws in Wolf Beat, and run down, if possible, the wildcat stills that are reputedly to be located in that remote part of the county.

"We now ask leave to recess until the second Monday in December, when we will complete our investigations and report further.

"Respectfully submitted,
"R. T. PUCKETT,
"Foreman."

The grand jury is composed of the following men:

Roman T. Puckett, Hartselle; Sam

PATTERSON URGES HARMONY

PRESIDENT OF COUNCIL ALSO
EXPRESSES APPRECIATION OF
COURTESIES.

"Now that the election is over and there is no danger that my remarks may be misunderstood, I desire to say a few words to the council," said President John Patterson in opening the oratorical pyrotechnics last night at the special meeting of the city fathers of Albany. Mayor Payne evidently shared the view of Mr. Patterson as to the opportuneness of the time, for he, too, made his first formal address since his recent induction into office.

Mr. Payne's remarks were confined largely to a plea for co-operation on the part of the council, officers and citizenship for the development and upbuilding of the city, and he outlined three fundamental things for which his administration will stand.

1. Better sanitary conditions.

2. Maintenance of the schools on a high plane of efficiency.

3. Preserving the streets, we have, rather than the building of a great many new ones.

"Our city should be sanitary," said Mayor Payne. "It should be clear and healthful, a city that we can be proud of and that strangers will admire. I place the maintenance of the schools as second to sanitation for the reason that there can be no good schools without robust, healthy children. We must have sanitation first, to keep the child well and strong, and then we should strive to make our schools as good as the best in the South.

"I think it is better to spend money on sanitation and schools at this time than on the building of new streets. I visited our schools today. I wish you aldermen would all visit them.

"We should have some definite plan of sanitation—some system. There is no reason why the garbage wagon could not make a trip through the alleys once a week. There is already an ordinance on our books compelling the householder to maintain at least one closed receptacle for garbage. I know this, because I was mayor when it was passed and it has not been repealed. If every property owner will comply with the provisions of this law, the cost of collecting the garbage will be reduced one-half. I ask the citizens to comply cheerfully in the observance of this ordinance and not be forced to do it."

Food Inspection.

Mr. Payne urged food inspection. He declared that the greatest menace to the public health was unprotected meats and milk. Meat was often brought in from the country unguarded from infection by flies; milk, he said, was the greatest known conveyor of fever germs.

"Our streets," he said, "are very good. They should be preserved. To

GERARD SAFE HOME; HIS MISSION STILL IS WORLD MYSTERY

American Ambassador to Germany Reaches Port Safely Despite U-Boat Activity

DECLINES TO MAKE STATEMENT

Widely Heralded That He Brings Warning of German Resumption of Ruthless Submarine Campaign

(International News Service.)

New York, Oct. 10.—Refusing to confirm or deny any of the reports published about his mission, James W. Gerard, United States ambassador to Germany, arrived here today on the Scandinavian liner Frederick. The ambassador was accompanied by Mrs. Gerard. "I won't say a word," declared Mr. Gerard emphatically, when questioned by reporters. "I refuse to confirm or deny anything."

Mr. Gerard declared emphatically that he would return to Germany, saying: "I am just as sure I will go back as that I am standing here." Pressed in particular about the report that he is here to warn the president of Germany's intention to begin a most drastic submarine warfare he retorted sharply: "Well, that didn't come from me, did it?"

This was Mr. Gerard's first vacation since the war broke out. The Frederick VIII passed through the new submarine war zone off the New England coast without being endangered in any way.

An enthusiastic greeting was given the returning ambassador. A committee headed by Oscar Strauss went down the bay to meet him. Some of the passengers of the liner who were gathered on the deck said that a submarine had been sighted from the deck of the liner last Sunday.

E. M. Wise, Former Flint Boy, Is Now Gen. Manager of Guantanamo and Western Railroad in Cuba

The rapid rise of a Morgan county boy from a country town to general manager of a railroad in Cuba was related this morning by friends in Albany who received notice of the promotion.

The former Morgan countian is E. M. Wise, who was raised at Flint. He is now general manager of the Guantanamo and Western railroad at Guantanamo, Cuba. Mr. Wise is a cousin of Mrs. W. W. Callahan of Decatur, and is well known here and at Flint.

Notice of the promotion of Mr. Wise was given in a circular sent out by President M. H. Lewis of the railroad, from his office at 82 Beaver street, New York. The circular said: "Effective this date Mr. E. M. Wise is appointed general manager in charge of all departments, with office at Guantanamo, Cuba, vice Mr. H. B. Snider, resigned. By order of the board of directors."

A letter was received this morning from Mr. Wise by Pruett Stinson of the firm of Stinson Bros. of Albany. Mr. Wise reported conditions in the island very prosperous because of the high price of sugar. He was sent to Cuba to make a report on the road, but was instead put in charge. He expects to be in Cuba six or eight months.

THE BOY SCOUTS.

Of what use is this Boy Scout movement, asks the Memphis Commercial Appeal, in a complimentary editorial on the Scouts.

One has only to look around at some of the boys who have been saved from the fate of cigarettes and other bad habits to find the use of the Boy Scouts. Although not as extended in scope as the Young Men's Christian Association, the Scout movement exerts just as beneficent an influence over younger boys as the association holds over the older ones.

The Scouts allow no profanity, no off-color jokes and no cigarettes in their ranks. They stand for the best in boydom. They stand for bodily development with moral development. They court the great out-of-doors where man gets nearer to nature and to God.

In the sister cities of Decatur and Albany the Boy Scouts are doing a great work.

THE PROGRESS OF THE FIGHT.

The big fight—the political war that is attracting the attention of the world second only to the great war in Europe—is progressing more than satisfactorily to the democrats. The New York Herald has admitted that Wilson is gaining, while Hughes is losing and in one of the early issues of the great newspaper we confidently expect that the reluctant admission of the president's probable victory will be made.

The race that Mr. Wilson is running in the straw votes, if indeed they may be taken as any sort of criterion, is truly remarkable. For instance, as the Daily has pointed out before, Mr. Wilson is running neck and neck with Hughes in the strongly German and republican city of Cincinnati, while in the country districts of Ohio the president is running far ahead. To a dead certainty he will carry West Virginia and Missouri, while Kentucky is about as doubtful as Alabama. Indications are that Mr. Wilson will also carry New York and one or two of the small eastern states.

The outstanding feature of the race thus far is that Wilson is steadily gaining, while Mr. Hughes has constantly been going back since the Chicago convention. Just where this backward and forward movement will cease remains to be seen, but we are very strongly of the opinion that Wilson's re-election is as sure as anything can be in politics.

GATES' REVIVAL COMES TO CLOSE

EVANGELIST HAS PHYSICAL ATTACK AND LEAVES FOR HOME.

Evangelist Gates, who transferred his revival Monday to the South Side Baptist church, was compelled to leave last night for his home at Louisville, bringing to a close the series of meetings which began more than three weeks ago. The evangelist, who has complained of his physical condition throughout the revival, stated that he had suffered a collapse and was unable to continue the work.

Prior to his departure Mr. Gates was presented with a purse of \$500, according to the statement today of Pastor Mays of the Central Baptist church. Mr. Mays stated also that he had been misunderstood in his remarks of Sunday night in which he had urged a liberal reward for the evangelist, as he had only asked for \$500, but had added that "if preachers were paid in proportion to other professional men, Mr. Gates would receive at least \$1,000 for his services."

Prayer meeting will be held Wednesday night at the Central Baptist church.

Judge Ed. B. Almon Taken Suddenly Ill

Is Carried From Athens to His Home in Tusculum.

Congressman Edward B. Almon is ill today at his home at Tusculum after a sudden attack Monday at Athens. Judge Almon went to Athens to speak at the request of the democratic national committee on the issues of the national campaign. He was unable to speak longer than forty minutes and went at once to his room at the Rose House. When found at noon by Solicitor Dave Almon, Judge Almon had a high fever and was delirious.

Judge Almon was carried to his home on the night train Monday and is reported much better today, physicians diagnosing his case as a severe attack of malarial fever.

Minstrel Splinter Tickles Audience at the Masonic

The prediction that "Sugarfoot" Gaffney and Gene Gomez would be headliners on the bill booked for the entire week at the Masonic proved to be true. It was a good-sized crowd that braved the threatening weather to see the first of the attractions offered by the Southland Beauties Co.

Without a doubt "Sugarfoot" Gaffney is the best black face comedian seen 'round at the Masonic in a long while. His nickname, the "Minstrel Splinter," suits very well, as his form closely resembles that of an exclamation point.

Gene Gomez still has the feminine impersonating stuff down to that same perfection as when he appeared on the big wheel circuit. He received a good hand for his stunt. Even after he had taken off the wig there were whippers all over the house, "Is he a woman or is she a man?"

The company as a whole is as strong as the average tabloid, although the chorus is not so large, but very gaily costumed. As to the music, a number of popular songs were rendered, two of which deserve mention. "They Made It Twice as Nice as Paradise and They Called it Dixie Land," and "The Song of Songs," were both well received.

EDITOR AIDS IN LOCAL REVIVAL

Rev. John S. Chadwick Preached Sunday at Ninth Street Methodist.

Rev. Jno. S. Chadwick, the distinguished Nashville divine who is assisting Rev. C. P. Hamby in the revival at the Ninth Street Methodist church, preached thrice Sunday in his evangelistic effort. Once at a woman's meeting at 3 o'clock and also at the night and morning services. The preacher is associate editor of the Nashville Christian Advocate, the official organ of Southern Methodism.

His sermon was in part: Text—Colossians 1:18. "And He is the head of the body, the church."

"Concerning the question, what is the scriptural ideal of the church of Christ? there are many opinions, and it is not reasonable to expect that the time will ever come when all will agree or will come to the same interpretation of the teachings of the word of God. Our Creator has so made us, in His likeness and image—has so endowed us that to each has been given the right to think for himself and for himself to decide what is the truth. In the same world, under conditions practically the same, men and women will come to different opinion and conclusions concerning even the questions that relate to the affairs of every day life. To no individuals, to no company of men and women, has been given a monopoly of even the truth, and to claim such monopoly is to maintain a position that common sense, to say nothing of religion, does not justify. Our controversial battles have been fought usually over the issues that were comparatively unimportant, because we have magnified our differences and have overlooked the many points of agreement.

Debtor to the Church.

"But whatever our individual opinions, we have reason to give thanks unto God for the visible church which has lived through the centuries. It has not been always, or even at any time, such a representative of its head, Jesus Christ, as He would have it be, but to that church more than to any other organization or influence the world is debtor. It has added to the world's wealth as has no other organization, and on the lowest estimate of its worth it has the right to the support of the people. Compare material values in a section where the church influence has never been felt with values in a country where the church's influence has been potent, where life, property and those other things we count of real value have the protection of a public sentiment, the church in its work has done most to create. The church has claimed a share of the world's wealth for its work, but over against the amounts that the agencies of sin are taking from those who go in sin's ways the cost of the church's work is insignificant. The saloon alone takes seven times as many dollars per capita as does the church. The church has been the mighty agency in the world's forward movements towards better conditions for humanity—in movements for moral reform and social justice. The church's representatives fought those battles against the organized forces of evil and for moral reform when there were overwhelming odds against them.

Right of Membership in the Church.

"But we need to give first consideration to the question whether we have a right to membership in the true church of Christ, and that is determined not by name, ordinance, or even profession. Paul, in this letter from which the text is taken, gives the picture of those who really make up that body of which Christ is the head. They are those who have been 'delivered from the power of darkness and have been translated into the kingdom of his dear Son.' There must be real deliverance from the slavery which sin and the devil bring, and that deliverance comes only by the power of one greater than the devil, a deliverance impossible to human strength. If the Son, therefore, shall make you free, ye shall be free indeed. There is not only deliverance, but a translation: 'You have come over into a new experience, a new life, you have become a new creature in Christ.'

Evidences of Church Membership.

"What are the evidences of our membership in that body of which Christ is the head? We prove our claim in that we are in accord with his plans and purposes and we have His spirit. The only business Christ has for his church is that it do the work He came to do. Those who are his therefore will have (1) His vision of the great value of humanity—the worth of souls—humanity's great need of salvation; (2) His great love for the lost; (3) His burden of soul for those who are in bondage to sin and the devil; (4) His faith that humanity come through Him out of bondage into liberty, out of death into life; (5) His spirit of service to the world, going out after those who are lost and giving one's self in service to those. By these tests we prove our right to claim membership in His church."

GILLILAND'S NEW POEM.

Strickland Gilliland, the noted humorist and writer, a native of Jackson county, Ohio, now and then gives the public a poem, always full of good advice. Here is a late one full of good advice under the caption of "No Idle Words There."

There are no idle words where children are. Things spoken in their hearing carry far. Producing fruit of evil or of good To our great future human brotherhood.

The word dropped lightly from our careless lips Into the fertile child mind seeps and drips. And intertwines with thought and impulse so It may decide the path some soul shall go!

The eager child may not know it hears— The words may fall upon unwitting ears. But naughtless the record's graven deep; Subconsciousness a copy clear will keep.

So speak not thoughtlessly when they are by: Your words fall not on sterile soul or dry. Thoughts sown in plastic minds are carried far; There are no idle words where children are.

Maurice Richard Sparkman, the little son of Mrs. Emma Sparkman, was the happy honoree of a delightful party on Saturday afternoon from 2 to 5 o'clock at his home on Fifth avenue. The dining room was rendered most attractive with autumn leaves, fall roses and ferns, the table being centered by a pretty cake bearing three candles. It was here that many useful and beautiful gifts were displayed and a service of ice cream and cake enjoyed. Those assisting Mrs. Sparkman were: Mrs. Trame Reece, Mrs. John Hamlin, Mrs. Maude Hawk and Miss Jimmie Crocker. Those present were: Annie Grace Hamlin, Marguerite and Jamie Entrikins, Grace Hamilton, Gladys, Mildred and Edith Reece, Thomas Wells, Marian and Milton Wells, Thomas Lee, Bud Pate, Hazel Edwards, Margaret Hawk, Kinneith Huller, Rhena Mae Brown, Virginia and Donald Shropshire. At the close of the afternoon pictures were made of the party.

Mrs. Jake Turley, of Pine Bluff, Ark., is a guest of Mrs. William Rex.

Mrs. John Hamlin has returned from a visit to relatives in Tennessee.

Mr. and Mrs. J. Wilder and children have returned from Birmingham.

Mrs. F. M. Schlee and Mrs. M. B. Sittason have returned from Birmingham.

SUBMARINE REPORTED TO BE NEAR SAVANNAH.

(International News Service.) Savannah, Ga., Oct. 11.—The wireless operator on the American ship Minnesotan, while in dock here last night is reported to have intercepted a German submarine is off the mouth of the Savannah harbor. The Minnesotan sailed for France today and the report could not be confirmed.

Man Taken off Ship Claimed he Was U. S. Consul to Porto Rico

(International News Service.) New York, Oct. 10.—The Scandinavian-American liner Frederick VIII, which arrived today was taken into Kirkwall by a British warship and 1,000 bags of German mail removed. The British also removed a passenger named Harold Grobst who claimed to be an American citizen and United States consul to Porto Rico. Grobst appealed to Ambassador Gerard, who was a passenger on the ship, but the diplomat said he could do nothing.

HAROLD GROBST IS UNKNOWN AT CAPITAL. (International News Service.) Washington, Oct. 10.—Harold Grobst, who claimed to be an American consul to Porto Rico, is not known in official circles here. There is no such official as United States consul to Porto Rico.

Marshall Cobb to Call on Delinquents; Told to get Street Tax

Citizens of Albany who have failed to pay their street tax are to have the pleasure of receiving a call from City Marshal Cobb. The marshal will serve only warrants when he comes, and for that reason it is expected that he will not be received with that cordiality for which Albany is already noted.

Street tax has been delinquent for some time, and formal notice was recently given that unless paid prior to October 2 the penalty would be added. There is about \$1,000 still due, and the council last night instructed the marshal to get it; also to make a report on the success of his efforts.

MEXICAN BANDITS ROB DRUG STORE; AMERICAN SOLDIER KILLED IN FIGHT

ANOTHER OUTRAGE ON THE BORDER HAS AGAIN MARRED RELATIONS.

L. T. NUGENT LOSES LIFE

WAS EMPLOYED AS TRUCK DRIVER IN REGULAR ARMY SERVICE.

(International News Service.)

El Paso, Oct. 10.—Mexican bandits early today held up a drug store, robbed H. D. Hays, the proprietor, of \$35, and in the gun fight which followed fatally wounded Lawrence T. Nugent, a United States army truck driver, who died a few hours later. The bandits escaped.

CLEAN SWEEP IS MADE BY COUNCIL;

(Continued from Page One.)

Howell—Buck, Dillehay, McCulloch, Proctor, Wolfe.

For night policeman the vote was: Joe Bell—Harvey, Redding, Wolfe, M. C. Vest—Buck, Dillehay, McCulloch, Proctor, Tidwell.

In this race Wolfe who supported Howell, voted for Bell, while Tidwell, who supported Davidson, voted for Vest.

Sanitary Officer:

Dutton—Buck, Dillehay, Harvey and Tidwell.

Patterson—McCulloch, Proctor, Redding, Wolfe, Patterson.

On the second ballot, taken after the council had rescinded its first action in order to allow the name of W. O. Snyder to be added to the list of applicants, the voting was the same with the exception that Alderman Harvey switched to Patterson, and President Patterson did not vote, there being no tie.

A Big Field.

For street superintendent there was a big field of six applicants, and the council debated the best method of procedure in order to avoid a deadlock or tiresome balloting. However, no rules were necessary, as on the second ballot Mainard was an easy winner.

The applicants were: J. W. Pettie, Newt Hendrix, W. C. Mainard, J. D. McCutcheon, J. M. Robinson, Robt. V. Cowan.

First Ballot.

Pettie—Dillehay, Wolfe, Hendrix—Harvey, Mainard—Proctor, Redding, Tidwell, McCutcheon—Buck, McCulloch, Robinson and Cowan were distanced.

Second Ballot.

Pettie—Dillehay, McCutcheon—Buck, Mainard—Harvey, Proctor, Tidwell, Wolfe, Redding, McCulloch.

The newly elected officers will be sworn in some time this week.

The result of the election did not come as a surprise, as it had been known since the recent election that the official lives of all the "ins" were in the balance as the result of a general clamor for a clean sweep. The retiring officers have made enviable records. W. V. Davidson, who was defeated for day policeman, is a former city marshal, and is regarded as the best detective in this section of the state. His friends made a hard fight for his re-election, and a petition circulated in his behalf contained the names of many of the business men of Second avenue. His opponent, C. Ed Howell, was defeated for city marshal in the recent election by a narrow margin. He is prominent in Masonic circles and personally popular.

SANITATION FIRST SAYS MAYOR PAYNE

(Continued from Page One.)

allow them to wear full of holes is wasteful destruction." He referred especially to a bad rut in the Moulton street paving. He also spoke of the excellent condition of Sherman and Jackson streets, stating that Sherman street had been down seven years and was still in good condition. This paving, he stated, had cost less than any in the cities—only 80 cents. Mr. Payne also urged the conservation of the public property; that an inventory be taken of all tools and other implements belonging to the city.

He closed his address with a plea for harmony within the council, and for the co-operation of the public in helping to make his administration useful and beneficial.

Patterson Speaks.

Prior to the address of Mayor Payne, President Patterson had spoken briefly. He said:

"Now that we are organized, the committee assignments made, and the various offices filled, a few remarks at this time, if not well presented, at least well intended, would perhaps not be amiss.

"We are starting out under a new name, with a new mayor and a number of new councilmen, and while we were a little tardy at the post, even with a handicap start, we should be able to accomplish much during the next two years. I shall at this time take up the committee work, and take up as many of the committees as will serve as an illustration.

"All matters pertaining to the city's finances and all bills of every kind and character would be properly referred to the finance committee. All matters pertaining to street work of every kind and character would be properly referred to the street committee. All matters pertaining to the property of the city, the repairs and additions to school buildings, etc., would be properly referred to the public property committee, and so on down the line of police, fire, water, sanitary, relief and tax adjustment committees; and while I consider each committee important, I have only taken up enough of your time going into the committees, as will serve to illustrate. When a proposition has been referred to a committee it shall be the duty of the chairman of that particular committee to get in touch with the other members of the committee and discuss the matter in a fair and impartial manner, having at all times an eye single to the best interests of the city and its citizenship, never forgetting that you are the servants of the people.

"In the discussion of the various propositions that shall come before you from time to time I feel confident that no alderman will be actuated and prompted by motives other than the highest, and that no proposition shall fail to receive free and fair discussion simply for personal reasons.

"Speaking for myself, I want to say right here, that no proposition, no matter by whom presented, shall receive my approval or disapproval until I have been fully convinced after deliberate consideration that it merits my approval or disapproval. Much of our success will depend on our get-together spirit, and on our discussion of every question solely on its merits, looking at all times to the best interests of our community.

On Its Merits.

"After a proposition has been discussed by a committee, and an agreement reached, it shall be the duty of the chairman of that committee to make report of such at the following meeting of the council, whose pleasure it shall be to concur or not to concur in the report.

"Should you at any time be unable to reach an agreement you may bring before the council a majority and a minority report. You may ask for further time, or you may call upon the entire council to deliberate with you.

"I sincerely trust that each and every alderman will feel free to discuss all matters. In fact, the best interests of our city will be subserved by a free and fair discussion of all questions. I want every citizen to feel free to come before the council whether your purpose may be to commend or to censure. I bespeak for every petition, complaint or appeal, whether presented by high or low, by rich or poor, respectful, careful, and deliberate consideration.

What Is Uric Acid ?

THE CAUSE OF BACKACHE, RHEUMATISM, GRAVEL AND SUDDEN DEATH.

Ever since the discovery of uric acid in the blood by Scheele, in 1776, and the bad effect it had upon the body, scientists and physicians have striven to rid the tissues and the blood of this poison. Because of its overabundance in the system it causes backache, pains here and there, rheumatism, gout, gravel, neuralgia and sciatica. It was Dr. Pierce who discovered a new agent, called "Anuric," which will throw out and completely eradicate this uric acid from the system. "Anuric" has proved to be 37 times more potent than lithia, and consequently you need no longer fear muscular or articular rheumatism or gout, or many other diseases which are dependent on an accumulation of uric acid within the body. Send to Dr. Pierce, of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., for a pamphlet on "Anuric," or send 10 cents for a trial package of "Anuric Tablets."

If you feel that tired, worn-out feeling, backache, neuralgia, or if your sleep is disturbed by too frequent urination, go to your best drug store and ask for Doctor Pierce's Anuric Tablets.

Doctor Pierce's reputation is back of this medicine and you know that his "Golden Medical Discovery" for the blood and his "Favorite Prescription" for the ills of women have had a splendid reputation for the past fifty years.

Doctor Pierce's Pellets are unequalled as a Liver Pill. One tiny Sugar-coated Pellet a Dose. Cure Sick Headache, Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the Liver, Stomach and Bowels.
